Information Literacy & Technology Plan

Learning Guidelines

K-5

Adopted September 2005

Leadership Team Members

Nora Ho, principal
Kindergarten Lan Pham
First grade Carolyn Lamarr
Second grade Trish Wolf
Third grade, Terry Simanek
Fourth grade Barney Barrie
Fifth grade Bhopinder Dhillon
Paty Guerrero, School Media Technician

Ruskin Site Council members:

Nora Ho, principal
Kindergarten, Carolyn Lamarr
First Grade,
Second Grade, Susan Saltzman
Third Grade, Rachel Trinidad
Fourth Grade, Rebecca Cress
Fifth Grade, Bhopinder Dhillon
School Media Technician, Paty Guerrero

Lisa Lee, chairperson
Elaine Lam, vice-chairperson
Jennifer Lommasson, member
Janice Liu, member
Xuan Li, member
Natalie Gardner, member
Wendy Bartyczak, member

Ruskin Elementary Schools K-5 Grade Level Benchmarks

The specific skills and levels of proficiency describe in these benchmarks are expected of all Ruskin School students. The skills are to be taught as part of the Information Literacy Skills that Media specialists and classroom teachers will assess the successful attainment of these skills by individual students and report their findings as a part of the regular student progress report (report card) as being:

E - Exceeds benchmark

M - Meets benchmark

N - Does not yet meet benchmark

N/A - Not yet assessed

SKILL	K	1	2	3	4	5
Research and Inquiry Skills:	Research question I can ask a question about interest I have.	Research question I can ask a question about interest that I have.	Research Question With a group, I can formulate 5 questions about single topic. I can participate creating a mind-map about a topic.	Research question I can write research questions on a single topic.	Research question I can create three research questions on single topic	Research question I can create a research question that identifies topics, Subtopics, and key words

Communicate and use	I can tell about something I have observed or heard.	I can contribute to a class information sheet I can demonstrate my reaction to a story by drawing a picture.	I can create an accurately labeled graph to record findings. I can create a labeled diagram that is clear and recognizable on a topic.	- I can explain data using graphs.	I can create a written word-processed report that answers a single research topic. I can create a time line that shows chronological order - is on a single topic - is clearly labeled	I can take usable notes which help me answer my research questions that are in my own words and include the source of the information I can communicate and record data on a single topic. I can report and organize findings.
Evaluation	I can evaluate a computer-generated picture I can enjoy a book by: - having it read to me. - looking at the pictures.	I can evaluate a computer-generated picture using pre-developed criteria and verbally explain the picture I can complete a project checklist I can enjoy a book by: - having it read to me. - looking at the pictures.	I can interpret a graph and diagram I can enjoy a book by: - reading it myself - having it read to me. - looking at the pictures	- I can explain findings with relevant facts Answers questions and clear and accurate. - I can self-evaluate work using a teacher-generated checklist.	I can explain an event on a time line is significant. I can evaluate a project using a checklist.	I can compare individual findings to large group findings. I can identify areas for further investigation. Life-long Reading I can identify award winning Newberry and California Young Reader Medal books. I select books from a large variety of sources including - school media center - classroom collections - public Library - personal book collection I recommend books to others
Life-long reading behaviors and critical reading viewing and listening:	I can select and check out a book I like. I can create a picture using a computer graphing program.	I can choose a book that I enjoy reading. I understand the difference between fiction books and non-fiction books	I can select a book that interests me I check out books on a regular basis I can identify a Caldecott or other winning books. I can identify pictures that enhance the story	I can identify different kinds of stories - tall tales - fairy tales - folk tales - fables	I can identify different kinds of literature including: - mysteries - adventure stories - biographies - Newberry nominees	I can identify award winning Newberry and California Young Reader Medal books. I select books from a large variety of sources including - school media center - classroom collections - public Library - personal book collection I recommend books to others
Technology skills:	I can use a computer mouse to: - select - drag - drop I can identify a computer's: - keyboard - monitor - mouse and mouse pad	I can demonstrate my reaction to a story by creating a picture by using drawing software program. Using a computer I can: - start and quit programs - know how to open, click, double	I can use computer software to create a graph and a diagram. Using a word processor, I can: - edit text - delete text - change fonts, styles, and size - insert and alter clipart graphics.	I can use a computer program to record graphed data. I can use a computer program to create a product and/or presentation. I can use the file menu commands New, Open, Save, Print, Close, Quit	I can use the menu in computer programs to: - cut - copy - paste I can create a multi-media presentation. I can search the on-line library	I can format word processing documents with - columns - headers - footers - tabs I can produce a spreadsheet with assistance. I can chart a graph with assistance with a computer that - has axis labeled - has legend/key included - uses appropriate scale - uses appropriate

	<p>- CD-ROM drive I understand that books can be found using the on-line library catalog. I can do on-line activities on the Ruskin web site with assistance</p>	<p>click, file, and quit - do simple text entry - use paint tools - print - insert disks I can find a book on a subject or using the on-line library catalog. I can read information of the World Wide Web with assistance I can start and stop the recorder for audio equipment</p>	<p>I can find a book using a keyword a search tool in on-line library catalog. I can start and stop the recorder for both video and audio equipment I can take an Accelerated Reader Quiz</p>	<p>Close, Save, Print Using a word processor, I can - align text - select, insert and alter a picture taken from various media sources into text. I can send, read and delete an email message I can use a previously set bookmark to access a site on the Internet. I can take an Accelerated Reader Quiz</p>	<p>catalog to find book by title, subject, and keyword I can take an Accelerated Reader Quiz</p>	<p>intervals I can create a signature and nickname in an email program. I can take an Accelerated Reader Quiz</p>
Appropriate Use of Resources:	<p>I can listen to or watch an audio video tape appropriately. I can use and care for media materials and equipment in a respectful way I can return my books on time.</p>	<p>I can communicate ideas with others in a respectful manner. I can use and care for media materials and equipment in a respectful way</p>	<p>I only print with permission. I can use and care for media materials and equipment in a respectful way</p>	<p>I can use and care for media materials and equipment in a respectful way I understand how to use e-mail and the Internet in appropriate manner. I understand the school's acceptable use policy.</p>	<p>I can use and care for media materials and equipment in a respectful way I understand the difference between appropriate and inappropriate email messages I understand the difference between appropriate and inappropriate WWW sites. I understand the acceptable use policy.</p>	<p>I can use and care for media materials and equipment. I understand the difference between an appropriate and an inappropriate e-mail message. I understand the difference between an appropriate and an inappropriate WWW site. I understand the district's appropriate use policy.</p>

Looking at the School Library An Evaluation Tool

Evident (E)
 In Progress (IP)
 Not Evident (NE)

School: _____
 Date: _____

Access		NE	IP	E
Hours of library service are posted.				
Library is open before school, breaks, lunch, and after school.				
Library opens early in the fall and remains open until close to the end of the school year.				
There is library access during summer school or special sessions.	<i>Is library staff present during summer school so that materials don't disappear and students have access to resources?</i>			
Students are allowed to exchange books frequently.	<i>There might be a one or two-book limit, but can be books be exchanged as soon as the child has read them? Two books for two weeks is not good.</i>			
Students are allowed to take library books home.	<i>Is there training for students to care for books that they borrow? Who is responsible for it?</i>			
Kindergarten students are allowed to check out books. (Elementary)	<i>Can kindergarten students take library books home?</i>			
Library is available for parents to borrow materials.	<i>This might mean that parents borrow using the student's information or the system is set to include family information.</i>			
Electronic resources are networked in library and classrooms (High School).	<i>Most good California high school libraries make their electronic resources available through the library web site on the Internet to allow access from classrooms and home. Does library have a web site?</i>			
Teachers are encouraged to check out library books for use in classroom.	<i>Is there a limit to the number of books that can be checked out to the classrooms or can teachers borrow freely and often?</i>			

Staffing		NI	IP	E
Staff includes a credentialed library media teacher.	<i>A California library media teacher has both a teaching credential and a library media teacher credential</i>			
Staff includes a classified library employee.	<i>Many titles exist for this role. Could be called library tech, library clerk, library aide, library assistant or "librarian."</i>			
Job descriptions exist for library staff	<i>Does library staff have a copy?</i>			
Paid staff present during all hours of operation.	<i>How many hours per week? If not full time, what happens to library access?</i>			
Library staff trained in library procedures and service	<i>Classified staff can get training through county offices, community college programs, regular district events, automation system training, and special library staff development</i>			
Library staff encouraged to attend staff development events	<i>See above.</i>			

Collection	NE	IP	E
Library collection is cataloged and systematically arranged according to accepted standards			
Library collection includes: <ul style="list-style-type: none"> • Fiction • Non-fiction • Newspapers • Magazines (with an indexing service) • Encyclopedias (at least one print set not over 3 years old) • Materials in other languages (if appropriate) • Basic reference materials, e.g. current almanacs, dictionaries, current atlas, local phone book, <i>etc.</i> 			
Library collection is selected with professional input			
District has a written, board approved policy for selection of library materials including how to deal with challenges.			
Collection is enticing and up-to-date			

Programs	NE	IP	E
School library offers a variety of programs to motivate reading and library use for all levels of the student population			
Teachers, parents, students and community members are solicited and involved in the library.			
Library media teacher collaborates with classroom teachers to integrate information skills and use of technology into curriculum			

Facility		NE	IP	E
There is a place called the library that is accessible to all students	<i>A collection in the back of a classroom is not a library. It must be easy for all students and teachers to access.</i>			
Library has a dedicated telephone line	<i>Technology doesn't get more basic than this.</i>			
Library has space and furniture appropriate for students at the school	<i>Elementary: are there low tables and small chairs? Watch for folding chairs that may be unsafe.</i>			
Library is aesthetically pleasing, barrier-free, well lighted and ventilated	<i>Would this be a happy place for you?</i>			
Facility allows for a variety of activities.	<i>Is there room for more than one activity at a time? Are areas clearly labeled? At elementary level, is an area designated for the youngest children?</i>			

Library Administration and Funding		NE	IP	E
School has a plan linked to the district library plan for developing the library	<i>Since 1998, virtually all school districts apply annually for Library Act funding. A district library plan is part of the application process. Is there a copy of the district plan in the library?</i>			
School has a written policy for use of computers and of Internet in the library	<i>Do students have to demonstrate basic skills before using computers independently? Some libraries issue a computer-user license that is displayed on computer when student is working. Does library staff know about district's policy for use of the Internet?</i>			
School library program has a defined budget	<i>\$158.5 million dollars was shared among districts for five years. Though the funding was drastically reduced in 2002-2003, there still should be evidence of library collection improvement in every school.</i>			
Library has a functioning automated circulation system	<i>At the minimum: a system is used to track materials even if only cards and pockets.</i>			
Library has a functioning electronic catalog	<i>Card catalog is converted to electronic. Try looking up a book.</i>			
Principal supports school library program	<i>Principal (or appropriate administrator) can articulate the purpose of the school library. Does the principal routinely visit the library?</i>			

COMMENTS:
